DETAILED ACTION

1. This application has been examined.
2. The amendment filed 3/11/09 has been entered.

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 21-28 and 36-40 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. These claims are directed to a physical machine readable medium which per the specification may still be a signal. Such a medium is not statutory subject matter.

5. Claims 1-20, 29-35, 41 are allowable over the prior art of record. The amendment brings out the distinction of how the associated second level of information elements are inserted in place of the otherwise unrelated first level of information elements, all in the one dimensional navigation. The claims are not set forth in the prior art of record.

6. Applicant's arguments filed have been fully considered but they are not persuasive. A signal is still a physical entity, and the specification may still be interpreted to include the signal itself being the medium. Please contact Examiner at earliest convenience to remedy the remaining issue and to expedite prosecution.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven P. Sax whose telephone number is (571) 272-4072. The examiner can normally be reached on Monday thru Friday, 8:30 AM - 5:00 PM.
